

Enhance

Plan Overview

Plan Description

Infolock enhances a customer's data security program by leveraging a Solutions Architect to align the organization's data protection needs with their desired business outcomes.

By first establishing data use and product maturity, Infolock optimizes product integration and utilization, with the potential to advocate and implement consolidation efforts where applicable. With Infolock's Enhance Plan, organizations achieve long-term data security resilience, proper technology-use according to best practices, and subject matter expertise fulfillment.

Enhance Plan

Annual Subscription

Service Features

Annual Program Roadmap

Implement/Migrate

Optimize Product Integration

Healthcheck

Upgrades

Designated Resources

Solutions Architect

Customer Success Manager

Note: Infolock Service Plans are priced on a per product basis, additional products can be added for a fee.

Why Choose the Enhance Plan?

Challenges

- ! Short-staffed and lack SMEs
- ! Not getting value out of my data security investments
- ! Lack product integration due to disparate technologies and immature product utilization
- ! Lack business outcome alignment
- ! Unable to meet my data security requirements

Benefits

- ✓ Bridge the expertise gap by leveraging a designated architect
- ✓ Align the organization's data security needs and business outcomes by:
 - Performing architectural reviews & healthchecks
 - Optimizing product integration & utilization
 - Advocating & implementing consolidation and migration efforts where applicable

Outcomes

- ↑ Long-term data security resilience
- ↑ Proper technology-use according to best practices
- ↑ Refined data security orchestration
- ↑ Subject matter expertise fulfillment
- ↑ Synergistic relationship with vendor support

About Infolock

Founded in 2005, Infolock is the go-to data risk management advisory, consulting, and managed services firm for security conscious organizations. With a programmatic approach, Infolock expertly manages the complex data risks of its clients, enabling organizations to achieve their strategic business objectives. Named among the "Fastest Growing Companies" on Inc. Magazine's "Inc. 5000" list, Infolock developed DataRAMP™, a data risk management framework which empowers organizations to understand and manage data risk in the same manner as other organizational risks, such as financial, competitive, and regulatory risk. Headquartered in Arlington, VA, Infolock serves customers in the financial services, healthcare, government, educational and other highly-regulated industries around the world.
